2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard)

https://www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements fo	or the
University of California (UC	:)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/.

2024-25 School Description and Mission Statement

Kempton Literacy Academy, located in the heart of Spring Valley, proudly educates over 450 students from preschool through fifth grade. Not only do we provide students with a rigorous, high quality, standards-based education in a traditional classroom setting, but we are also home to the first dual language immersion program in the La Mesa-Spring Valley School District.

Our students in our 50/50 dual language program learn to listen, speak, read, write, and build metalinguistic connections in Spanish and English. Each student has access to all content areas in each language within a school year. Since our mission is to produce students who are bilingual, biliterate and multicultural critical thinkers and leaders, we aim to provide opportunities

2024-25 School Description and Mission Statement

for grade-level academic achievement in all subjects in each language from preschool through 5th grade. Our dual language immersion program currently exists in TK-5th grades, but plans are in place to expand to our neighboring middle school in the coming years.

Whether a student is in our dual language program or our traditional English-only general education program, all students receive a rigorous, standards-based, literacy-focused education. Through the use of our curriculum, music, art, and dance, we strive to cultivate a lifelong love of learning.

Our program provides a variety of academic supports for all of our students:

- English Language Learners are provided with English Language Development on a daily basis. Extra support is provided for students just beginning to learn English through our intervention program and language computer applications.
- We have 3 Specialized Academic Instructors, 12 paraprofessional, 2 Speech and Language Pathologists, and 1 psychologist who support our students with IEP goals from preschool through 5th grades.
- A full-time credentialed bilingual reading intervention teacher works with students in pull-out and push-in small groups, providing academic intervention in both English and Spanish.
- After-school intervention classes are offered through ELOP funds to continue the learning and offer extra support to students.
- Students who are excelling and moving beyond proficiency, as well as those who qualify for the Program for
 Acceleration, Challenge, and Enrichment (PACE) in grades 2-5, are provided extended and differentiated learning
 challenges through daily classroom instruction.
- Our social worker and counselor provide support in the areas of attendance, social-emotional support, small group behavior interventions, family support, and home visits.

Our Kempton teaching and support staff are committed to continued excellence. Our teachers work together as professional learning communities to create standards-based lessons aligned to the C6 Biliteracy Instructional Framework that focus on intellectual engagement, unlocking the 4+1 language domains, higher-level thinking, collaborative conversations, and problem solving. Our teachers desire for our students to take ownership of their learning with the goal of increased student achievement and strengthening their leadership skills. They do this by pushing themselves towards excellence in their field and areas of expertise.

Kempton could not run without our classified staff. We have 2 custodians to keep our campus clean, safe, and in good physical condition. Our library learning resource tech (LLRT) provides students with opportunities to check out books on a weekly basis, reads to students, maintains a neat and attractive library, and makes sure all students have the technology to be successful in class. Our LLRT searches for more books in Spanish to support our native Spanish speakers and our Spanish language learners in our Dual Language Immersion Program. She ensures students have access to an inclusive selection of books that mirror our student population as we want each child to feel seen and valued through literature. We have 12 special education paraprofessionals who support students with IEPs and 2 preschool paraprofessionals who support our state-funded preschool. Our child nutrition staff make sure students are provided with both breakfast and lunch, while our 7 campus attendants supervise our students when they are at lunch and on the playground. It is through their hard work and dedication that we have a clean and safe learning environment for all of our students.

In addition to our academic program, Kempton offers students opportunities to shine artistically. Each year we have our Winter performance with students performing songs in both English and Spanish from around the world. In the Spring, we have our Festival of the Arts where each teacher and class chooses a piece from an artist to replicate with their own style, identity, and flavor. Each student produces his or her masterpiece in the style of the famous artist using their own sazón. All works of art are showcased and displayed publicly during Open House.

Finally, we believe that parents are an important part of the educational team and working together is key to a student's success. Teachers and parents communicate, often daily, through Class Dojo, phone calls, emails, texts and in-person meetings. We believe that working together as a school community, we can continue to improve students' academic achievement, support students' social and emotional growth, and produce students who are strong, prepared, and productive members of the world community. We want to empower families as they partner with us to build literacy, community and the love for learning in our students.

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

Principal, custodians, and maintenance department work collaboratively to continuously inspect the facilities on a regular basis. Work orders are generated when needed, and maintenance is performed as required. An annual FIT report is conducted each year to ensure that the facilities are safe and conducive to learning. Schools also receive annual visits from the Fire Marshall. Fire extinguishers and fire alarm systems are inspected annually as well.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.
- 2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
- 3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

Parent involvement is key to the success of students. At Kempton, we offer multiple opportunities for parents to become involved in our school community through our committees, PTA, school activities, Kempton Parent/Family Learning Academies, and as a volunteer.

Parents can be part of the school's decision making process by becoming involved in our School Site Council or English Learner Advisory Committee. School Site Council helps develop the yearly school plan, determines how to spend funds, analyzes school data and works towards improving school achievement. We also have our English Learner Advisory Committee, which advises our school plan, analyzes school data and works towards supporting our multilingual students who are learning English as a second language. Contact Principal Josa at janet.josa@Imsvschools.org or call 619.668.5870 ext. 4499 if you are interested in becoming involved and partnering with us in your child's education.

2024-25 School Safety Plan

In La Mesa-Spring Valley School districts, each site creates a Comprehensive School Safety Plan (CSSP). Site plans outline systems, programs, and practices in place to ensure a safe school environment including, but not limited to, child abuse reporting, disaster preparedness, campus access, and drug and alcohol education and emergency response. These plans are approved by the school site council (in December) and later by the La Mesa-Spring Valley School Board of Education (in February).

Each school site has one teacher appointed as the school's Safety Lead. This person attends bi-monthly safety meetings and

professional developments with the district's Chief Safety Officer and implements safety initiatives at their sites, in collaboration with site administration. The Safety Lead supports the creation of the site's CSSP and is a member of the larger safety team on each site. The safety team is responsible for periodically conducting hazard and vulnerability assessments of the campus. setting goals and action steps relative to the district Safety Standards, engaging in a Safety Standards Self Assessment, and creating school-wide safety plans and protocols that are detailed in the CSSP.

Lastly, La Mesa-Spring Valley continues to focus on the safety of staff and students in our district through facilities and infrastructure initiatives. Increased measures for campus safety are also being implemented as part of a series of Facilities Master Plan improvements including but not limited to extensions of current fencing, securing locked gates, implementing single points of entry to campus, and initiating remote entry controlled by office staff at each school site in the district. Such added measures are added to the CSSP, where relevant.

Professional Development

Professional learning in La Mesa-Spring Valley School District (LMSVSD) continues evolving to cultivate the capacity and efficacy of teachers so they can ensure high levels of learning for each and every student. In recent years, professional learning has emphasized developing a common language around high-quality teaching and learning and building collaborative cultures that promote high levels of learning for all students through professional learning communities. In response to student performance data and classroom observation, current professional learning focuses on aligning instruction to grade level standards and student experience, with extra time and resources dedicated to literacy and the needs of English learners.

Central to our professional learning in 2023-24 was our focus on improving students' ability to comprehend complex informational text through the use of powerful practices: collaborative conversations, short constructed responses, and close reading. Principals and their site Instructional Leadership Team (ILTs) continued their work with the quality indicators and the Framework for Powerful Learning to bring professional learning around the powerful practices back to their sites. Principals and ILT teams met monthly with teachers for a two-hour Site Learning Day (SLD) session to engage in this work. Sites also learned to apply the Cycle of Professional Learning, which includes training, safe practice, observing colleagues, receiving feedback, reading professional literature, looking at student work and data, and monitoring, measuring, and modifying when necessary. Through this cycle of professional learning, teachers refine their approach, promoting stronger student comprehension of informational text.

We also focused on year 1 of the implementation of the C6 Biliteracy Instructional Framework as part of our staff's professional learning. Being a dual language immersion school requires professional learning that is unique and specific to strengthen the ability for our teachers to facilitate learning in two languages throughout the day and bridge lessons strategically.

Building on the foundation of professional learning communities (PLCs), teachers extend their SLD work through weekly team meetings. These sessions, either by grade level or within discipline areas, focus on analyzing student data and sharing strategies to support every student's learning needs. By continually engaging in the Cycle of Professional Learning, teachers observe one another and provide ongoing feedback within PLCs throughout the year.

Alongside site-based professional learning, our 2023-24 Blended Professional Development program offered a mix of required and self-selected courses. Each teacher is responsible for completing at least four hours of professional development outside their regular workday. This included a two-hour required session focused on literacy and an additional two hours of self-selected courses from a variety of offerings. To further personalize professional learning, Lead Teachers were chosen to present literacy-focused sessions, ensuring each teacher receives a literacy course customized for their grade level or subject area. LMSVSD educators are enthusiastic about growing their skills, and the district is committed to supporting them with valuable tools, strategies, and training.

Additional individual professional development opportunities will be planned and offered by Teachers on Special Assignment,
