Rancho Elementary School 2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <u>https://www2.calstate.edu/</u> .

2024-25 School Description and Mission Statement

Rancho Campus is a diverse community school with approximately 340 students enrolled, from preschool through fifth grade. We are committed to creating a caring and culturally responsive learning community that prepares our students for personal and academic success. At Rancho, every child is known and experiences authentic connection with our dedicated staff.

Committed and conscientious teachers curate meaningful learning experiences that support students to meet the rigorous expectations of California State Standards. We offer a broad course of study that leverages the power of technology to address individual needs and to promote relevant and engaging learning. From comprehensive and individualized reading and math

2024-25 School Description and Mission Statement

instruction to motivating hands-on projects in literature, science, and social studies, children engage in high quality learning experiences through a socially conscious lens that nurtures, challenges and inspires them to soar and transform. Student voice is amplified and identity is celebrated as we strive to connect what happens within the classroom to what is happening around us.

Teachers collaborate to establish goals and plan for student learning in alignment with District Essential Standards. Instruction is differentiated to scaffold learning for students at varying levels and teachers meet together regularly to monitor student progress through lesson reflection and student data analysis, responding with re-teaching and small group intervention. Classroom teachers work with intervention and support staff to provide intensive support for students in need of additional assistance through a tiered intervention system. We are home to 3 special day classes that serve students with moderate to severe disabilities.

At Rancho, student efficacy is central. Students are the main stakeholders in their learning. They are expected and supported to understand learning objectives, success criteria, and how to set personal goals for improvement. Social emotional learning is prioritized through daily classroom activities and augmented through Safe School Ambassadors and Dino School under the leadership of our full time social worker.

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

Principal, custodians, and maintenance department work collaboratively to continuously inspect the facilities on a regular basis. Work orders are generated when needed, and maintenance is performed as required. An annual FIT report is conducted each year to ensure that the facilities are safe and conducive to learning. Schools also receive annual visits from the Fire Marshall. Fire extinguishers and fire alarm systems are inspected annually as well.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.
- 2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
- 3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

At Rancho, we strive to partner with families and caregivers because we know they are key to student success. Our stakeholder groups, School Site Council, English Learner Advisory Council and PTA serve as sounding boards and provide keen insight into the needs of the community and the most effective means to foster collaboration. Their input drives family and caregiver education topics such as content concepts/skills and work habits to promote student academic success. Topics also include school safety and anti-bullying. Additionally, we recognize that more than anything families want connection and community so we offer a variety of events to bring families together. We hold informal gatherings like ELAC morning, Friday Community Circles, Field Day and our Trunk-or-Treat Carnival offer us a chance to gather to play together. Most importantly, events such as Family Reading Fridays and Curriculum Nights bring us together to learn how to learn together.

2024-25 School Safety Plan

In La Mesa-Spring Valley School districts, each site creates a Comprehensive School Safety Plan (CSSP). Site plans outline systems, programs, and practices in place to ensure a safe school environment including, but not limited to, child abuse reporting, disaster preparedness, campus access, and drug and alcohol education and emergency response. These plans are approved by the school site council (in December) and later by the La Mesa-Spring Valley School Board of Education (in February).

Each school site has one teacher appointed as the school's Safety Lead. This person attends bi-monthly safety meetings and

2024-25 School Safety Plan

professional developments with the district's Chief Safety Officer and implements safety initiatives at their sites, in collaboration with site administration. The Safety Lead supports the creation of the site's CSSP and is a member of the larger safety team on each site. The safety team is responsible for periodically conducting hazard and vulnerability assessments of the campus, setting goals and action steps relative to the district Safety Standards, engaging in a Safety Standards Self Assessment, and creating school-wide safety plans and protocols that are detailed in the CSSP.

Lastly, La Mesa-Spring Valley continues to focus on the safety of staff and students in our district through facilities and infrastructure initiatives. Increased measures for campus safety are also being implemented as part of a series of Facilities Master Plan improvements including but not limited to extensions of current fencing, securing locked gates, implementing single points of entry to campus, and initiating remote entry controlled by office staff at each school site in the district. Such added measures are added to the CSSP, where relevant.

Professional Development

Professional learning in La Mesa-Spring Valley School District (LMSVSD) continues evolving to cultivate the capacity and efficacy of teachers so they can ensure high levels of learning for each and every student. In recent years, professional learning has emphasized developing a common language around high-quality teaching and learning and building collaborative cultures that promote high levels of learning for all students through professional learning communities. In response to student performance data and classroom observation, current professional learning focuses on aligning instruction to standards and student experience, with extra time and resources dedicated to literacy and the needs of English learners.

Central to our professional learning in 2023-24 was our focus on improving students' ability to comprehend complex informational text through the use of powerful practices: collaborative conversations, short constructed responses, and close reading. Principals and their site Instructional Leadership Team (ILTs) continued their work with the quality indicators and the Framework for Powerful Learning to bring professional learning around the powerful practices back to their sites. Principals and ILT teams met monthly with teachers for a two-hour Site Learning Day (SLD) session to engage in this work. Sites also learned to apply the Cycle of Professional Learning, which includes training, safe practice, observing colleagues, receiving feedback, reading professional literature, looking at student work and data, and monitoring, measuring, and modifying when necessary. Through this cycle of professional learning, teachers refine their approach, promoting stronger student comprehension of informational text.

Building on the foundation of professional learning communities (PLCs), teachers extend their SLD work through weekly team meetings. These sessions, either by grade level or within discipline areas, focus on analyzing student data and sharing strategies to support every student's learning needs. By continually engaging in the Cycle of Professional Learning, teachers observe one another and provide ongoing feedback within PLCs throughout the year.

Alongside site-based professional learning, our 2023-24 Blended Professional Development program offered a mix of required and self-selected courses. Each teacher is responsible for completing at least four hours of professional development outside their regular workday. This included a two-hour required session focused on literacy and an additional two hours of selfselected courses from a variety of offerings. To further personalize professional learning, Lead Teachers were chosen to present literacy-focused sessions, ensuring each teacher receives a literacy course customized for their grade level or subject area. LMSVSD educators are enthusiastic about growing their skills, and the district is committed to supporting them with valuable tools, strategies, and training.

Additional individual professional development opportunities will be planned and offered by Teachers on Special Assignment, Coordinators, Lead Teachers, social workers, and/or administrators for the 2023-34 school year. Some examples of course offerings included:

As we continue to support the professional learning of our educators, the LMSVSD Staff website continues to be enhanced to include pacing guides, essential standards, quick links for tutorials with Google Classroom and other Learning Management Systems, online curriculum support, and more. The site also includes tools and information for supporting Multilingual English Learners and Special Education students, as well as providing differentiation resources for the content areas.

LMSVSD believes in continuous learning, and we will ensure high-quality professional learning for all our staff.
